### Perfect Purity

Is really the principal claim for Butter-Perhaps, under the most favorable conditions, the best Fresh Butter may be as good as Butterine; but not one consumer in ten thousand gets his Butter when it is absolutely fresh. The very minute that Butter comes out of the churn it starts on the road to rancidity. It may become wholly unfit for use within a few days, or it may take a couple of weeks. Butterine is always wholesome; never rancid. It is better and safer than the best Butter that was ever churned. It costs the same, or less, than common Butter.
